

MISSION STATEMENT

To empower young adults in developing their capabilities; support them in facing challenges and guide them in discovering and pursuing new and positive directions by bringing together resources and opportunities that allow them to become confident, responsible, successful, accountable individuals in the community.

The House of Transformation will be equipped to meet the needs of both girls and boys starting at ages 10-24 and to assist in providing the following:

- A safe sanctity away from confusion
- A daily meal
- Clothing will be provided if needed
- Total Makeovers
- Etiquette classes
- Education Classes
- Recreation
- Counseling for stress management, anger management, financial budgeting/planning, health, and wellness
- Transportation Services
- Access to computers
- Life skills/Healthy Living
- Grooming and hygiene
- Communication skills
- Relationship building
- STD and HIV Awareness
- Drug and Alcohol Referral

Do you know how to get to the Emergency Room?

Life happens! No one is fully in control of what is designed or planned for your lives by our Creator. We realize that life will present us with challenges. So much so, that it seems unbearable. Sometimes life is so overwhelming that we are vulnerable to the state where our emotions overtake us in negative thinking to now it is controlling our thought patterns. You are weak, depressed, have no zeal to fight, or don't know how to fight.

Life happens! You are feeling overwhelmed. You've gotten to a place where you feel like your faith is depleted and your daily task has gotten you so inundated that you are operating in habits or daily routine. Your balance is off and you need spiritual, emotional, and mental revitalization.

HOT International is designed as a Holistic Hospital

These are the initial Steps to Your Care:

Step 1 — Triage

We must quickly administer medicines of love into their veins. Love covers a multitude of things. We must first show the person that despite what they have done and are currently feeling about themselves, they are worthy of Love. transformation.

Step 2 — Registration

The registration process is important for two reasons: It enables our staff to gather background information for your individual file and to obtain your consent for specific targeted treatment. Both are necessary as A man cannot hear if he is hungry. We will satisfy this natural appetite so that the mind will then be receptive to the consenting process also explains the policy of the organization.

Step 3 - Treatment

You will be lovingly treated according to the circumstances that initially brought you to HOT also in conjunction with our organization's policy.

Step 4 — Re-evaluation

At this stage, we analyze or evaluate our approach toward your current treatment to give the best possible results. We must determine if what has been applied works or if external assistance from other partners of HOT is needed.

Step 5 — Discharge

Part of our job is to keep you in a stable healthy mind frame with spiritual, emotional, and mental support long after you have left our organization. We try to make sure you can leave better than you arrived; to be able to face your challenges; and to know who you are in mind, body, and spirit.

We also have organizations we may connect you to, who are partners with us to assist you, if the need should arise, such as finding a church, mentor, job, etc.
